Building Contact Centers that Scale and Succeed: Culture, Motivation & Smart Onboarding

Presented by Michael Maguire, Chief Revenue Officer, NobelBiz

TABLE OF CONTENTS

01

The Contact Center Reality Check

Why dashboards, data, and tech alone won't solve the people problem.

02

Culture: The Foundation of Scalable Success

How to build environments where agents stay, grow, and perform.

03

Motivation: Leading the Modern Workforce

What today's teams — especially Gen Z — need to feel purpose and belonging.

04

Smart Onboarding: Setting the Stage for Performance

Turning onboarding into a culture experience, not just compliance.

05

Alignment: Scaling People, Process & Technology

Bringing it all together to grow sustainably with clarity and confidence.

06

The Future of Human-Centered Contact Centers

Key takeaways and a call to lead with empathy, not just efficiency.

The Contact Center Reality Check

The Challenge:

- 40–60% annual agent turnover in many contact centers
- Rising expectations from digital-native customers
- Leaders flooded with data but lacking human insight

The Opportunity:

- Compete through *culture*, not cost
- Build contact centers where agents want to stay and customers love to connect

“Culture is the new KPI.”

Culture: The Foundation of Scalable Success

Culture isn't a buzzword — it's your retention strategy.

What Winning Cultures Do:

- Make values *visible* — in every process and policy
- Build belonging through recognition and community
- Encourage leaders to listen more than they measure

Practical Ideas:

- Peer mentoring and micro-teams
- Recognition dashboards (celebrating people, not just numbers)
- Regular “voice of the agent” sessions

Motivation: Leading the Modern Workforce

Motivation has shifted from “what’s in it for me” to “what do I belong to?”

How to Motivate Modern Agents:

- Align work with *purpose* — show customer impact stories
- Personalize coaching, not control
- Redefine performance around growth and learning

Key Insight:

- Gen Z values *meaning* and *flexibility* more than money alone
- Empowerment + feedback = engagement

Smart Onboarding: Setting the Stage for Performance

Traditional onboarding is information overload. Smart onboarding is identity-building.

Reimagine Onboarding:

1. **Preboarding:** Send welcome messages, intro videos, and culture touchpoints before Day 1
2. **Blended Learning:** Mix training with live shadowing and simulations
3. **Early Wins:** Give new agents real success moments within their first week
4. **Career Pathing:** Show clear growth from Day 1

“Onboarding should make them feel they’ve joined something, not just started a job.”

Alignment: Scaling People, Process & Technology

Scaling sustainably requires alignment across every layer

How to Align:

- **People:** Shared vision, shared values
- **Process:** Simplicity > complexity
- **Technology:** Use tools that serve humans, not the other way around
- **AI Enablement:** Remove mundane tasks that AI can now accomplish, allowing agents to focus on more complex, meaningful, and fulfilling work

Checklist for Alignment:

- ✓ Weekly leadership syncs across HR, Ops & IT
- ✓ Shared KPIs that include employee experience
- ✓ Feedback loops from frontline to leadership

The Future of Human-Centered Contact Centers

The Takeaways:

- Culture is your retention engine
- Motivation is personalized, not standardized
- Onboarding is where culture begins
- Alignment scales success

“If you want your contact center to perform, start by making it a place people want to belong.”

3. Our Products

A

Omni+ Channel

Cloud Based Platform

Unified Desktop - Voice
(outbound, inbound) Webchat,
E-mail, Social Media

All you need is internet & a
headset

The solution for a seamless
customer journey

Remote work

Limitless channel integrations

Intuitive agent dashboard

Dynamic business router

B

Voice Carrier Services

Reliable & Redundant

Low price & High Quality

Quick Switch

Simple agreements with no
minimums

Outbound productivity tools
